Tye Nzambu

Full-Stack Developer

tyejoseph732@gmail.com · +254 714430308 · Nairobi, Kenya
LinkedIn · GitHub · Portfolio

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building modern web applications using React, Node.js, and PostgreSQL. Skilled in delivering responsive, user-centric solutions — from real-time chat systems to full-stack CRUD applications. Strong foundation in system administration, REST API design, and agile workflows. Passionate about writing clean, maintainable code and turning ideas into polished digital products.

TECHNICAL SKILLS

Frontend	React, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap
Backend	Node.js, Express.js, PHP, REST APIs, Socket.io
Databases	PostgreSQL, SQL
Tools & DevOps	Git, GitHub, Vite, Vercel, VS Code
Other	Authentication (JWT), Responsive Design, Agile/Scrum

PROJECTS

Chat App — Real-Time Messaging Platform

React · Tailwind · Socket.io · Node.js · Express

- Engineered a full-stack real-time chat application supporting multiple concurrent users
- Implemented bidirectional communication using Socket.io with event-driven architecture
- Built a Node.js/Express backend handling user presence detection and instant message delivery

Personal Expense Tracker — Financial Dashboard

React · Material UI · JavaScript · CSS

- Developed a dynamic expense tracking app with category-based visual breakdowns
- Built interactive dashboard charts for at-a-glance spending analysis
- Implemented full CRUD operations for adding, editing, and deleting expenses

Portfolio Website — Personal Brand Platform

React · Vite · React Router · CSS3

- Designed a responsive portfolio featuring dark/light mode, glass-morphism UI, and animated sections
- Integrated GitHub API for live stats, EmailJS for resume delivery, and Formspree for contact forms
- Built component-driven architecture with lazy loading and code splitting for performance

Bookify — Book Collection Manager

Node.js · Express · HTML5 · CSS

- Built a server-side rendered book management system with search and favorites functionality
- Designed RESTful API endpoints for book CRUD operations with persistent data storage

PROFESSIONAL EXPERIENCE

System Administrator

Directorate of Information Services — Kenya News Agency

Nairobi, Kenya · Oct 2023 – Dec 2023

- Tested, implemented, and maintained the Kenya News Agency website, ensuring 99% uptime during deployment cycles
- Administered network infrastructure, diagnosing and resolving connectivity issues across the organization
- Configured and deployed newly acquired hardware and software, reducing setup time through standardized procedures

Frontend Developer Intern

2022 – 2023

- Built and maintained responsive client websites with mobile-first design and cross-browser compatibility
- Collaborated with design teams to translate wireframes into pixel-perfect, accessible web interfaces
- Improved page load performance through image optimization and lazy loading techniques

EDUCATION

Diploma in Computer Science

Mount Kenya University — Thika, Kenya · Graduated Aug 2025

Relevant coursework: Data Structures & Algorithms, Database Management, Software Engineering, Web Development, Networking

CERTIFICATIONS

Full-Stack Web Developer — Udemy (2025)

WordPress Developer — Udemy (2025)
